COMPANY PROFILE

We are a specialised company providing professional cleaning of refrigeration equipment and technical installations in large-format retail facilities. Our services are aimed primarily at supermarkets, retail chains and retail businesses where the highest standards of hygiene, technical safety and operational efficiency are required. Work is carried out mainly at night so as not to disrupt ongoing sales-floor operations. All completed work is photographically documented and confirmed by a service report. We work according to clearly defined procedures and in compliance with applicable hygiene and safety standards. Thanks to our mobile teams and our own transport, we can carry out assignments efficiently at different locations – both individual stores and larger regional projects. Upon request, a trial cleaning can be performed to evaluate the cooperation.

SCOPE OF SERVICES

Cleaning of refrigerated display counters

- Cleaning and disinfection of air circulation openings and ventilation grilles
- Cleaning and disinfection of the drip tray, including the drain
- Cleaning of shelves, dividers and equipment components
- Cleaning and disinfection of glass surfaces (both sides)

COOPERATION PROPOSAL

We are available at any time to discuss the details of a potential cooperation. We would be pleased to present our working model, service schedule and operating conditions, tailored to the specific requirements and size of each facility. We are prepared to carry out our services in an organised manner and in accordance with the applicable standards of retail chains. Our work is performed according to defined procedures, in compliance with all safety regulations and with the aim of ensuring uninterrupted operation of the sales floor. We offer the option of starting the cooperation with a trial cleaning in selected stores. This allows the quality of our services to be assessed and the working model to be adapted to individual requirements. Upon request, we will be pleased to provide a detailed scope of services, the structure of the assigned team and a proposed work schedule.
